## How Members Use This Plan

1. Members call: **1-877-437-6105**
2. A QualSight Care Manager registers the member, explains the plan, and answers questions.
3. A preliminary phone screening is conducted to ensure the member is a potential candidate.
4. Members select a local preferred provider from a nationwide list of over 800 locations.
5. The Care Manager schedules a pre-operative appointment and collects a refundable deposit from the member.
6. After a successful pre-operative exam with the physician, the member has the LASIK procedure and follow up visits with the physician.
7. After the procedure is complete, QualSight will send a member survey to confirm satisfaction and savings.

**95% of QualSight patients would recommend QualSight and its physician network to a friend or co-worker.**

## QualSight Patient Testimonials

"After months of deliberation, I found QualSight to have not only the best prices, but also the best customer service. I am 100% satisfied with my experience and results. I would recommend this to anyone who is tired of glasses and contacts!"

*Bill, Illinois*

"I have always wanted to have LASIK but never dreamed it would actually be possible. Thanks to QualSight, I had the procedure done, and I can actually see clearly now! After years of wearing glasses, the results are amazing!"

*Gaye, Kansas*

"After years of putting it off, I finally had LASIK surgery. The results were better than I could have imagined! The QualSight staff put my nervousness at ease and the savings were significant. Thank you!"

*Rex, California*

"My wife and I both had our LASIK surgery done through the QualSight program. We were very impressed with the communication, customer service, professionalism, and care that we received. Our physician was excellent. All of the staff did a terrific job. It is very rare these days to find the service and care we were given."

*Tim, Oregon*

## The QualSight Solution

QualSight offers a Laser Vision Correction plan that is easily accessible and affordable for the millions of Americans who could benefit from LASIK eye surgery. Our mission is to provide members with affordable access to laser vision correction through a national network of credentialed, Board Certified Ophthalmologists. QualSight provides members savings of 40% to 50% off the national average price for Traditional LASIK.

### LASIK: Modern Vision Care

Since LASIK was approved by the FDA to treat vision correction, over 14 million procedures have been performed in the United States. A recent study by the Vision Council of America found that more than a third of Americans who use corrective eyewear consider having this elective procedure to improve or correct their vision.

Fortunately, with recent advances in Laser Eye Surgery, the majority of those needing vision correction can now take advantage of LASIK. **Whether a patient is nearsighted, farsighted, or has astigmatism, there is a Laser Vision Correction procedure available.**

"After 32 years of wearing glasses and contacts, I never thought I would get out of bed and not grab for my glasses. This procedure is amazing! If anyone has ever considered having LASIK, it is well worth it!"

Terry, Illinois

## The Most Popular Elective Surgery

LASIK is the most popular elective procedure. Nearly one million procedures are performed annually in the United States alone. The success rate speaks for itself - according to an FDA clinical study, 98% of patients have equal to or better vision after undergoing a Custom LASIK procedure, than they had with corrective lenses.
